

# *Atlante*

Unrestricted by tradition, blended for discerning tastes. An excessive, emotional, yet conventional serif for text and display.

DESIGNED BY

**Yorlmar Campos**  
**Martín Sesto**

YEAR

2022

Introducing the Atlante font family, a serif typeface of beautiful excess from Yorlmar Campos and Martín Sesto. Just as a handsaw and a hammer can together build something better than either could alone, different tools used for different reasons can often create a final hybrid product better inclined for more uses. This was the thought behind Atlante: the two writing tools of the flat pen and flexible pen, normally used for different purposes, informed its design to make it more aesthetic. Thus, Atlante taps into the rich typographic and stylistic history of baroques, Garaldes, transitional, and modern categories, while still being its own thing. It's the definition of a perfectly blended family.

The first thing likely noticed is the sharpness and precision of Atlante's forms, which makes sense, as it originally stemmed from the idea of an italic-only family. Care was taken with the extreme weights and delicate contrast to maintain its sophistication in pixel and on paper.

The entire family feels comfortingly familiar while being a fresh take on a text and display companion. The text styles are straightforward and slightly blunted

to hold up well in small sizes. The display styles push the ideas to either edge: more contrast, sharper, more flowing, more presence. Compare the 'a, s' in both styles to see it transition from svelte to sturdy. And if you want to see it transition with modern technology right in front of your eyes, opt for the variable font instead of the OTF.

With stylistic sets galore and enough personality for days, it's the very definition of malleable. The spur on the 'G' is serious business with a storied history. For more eye candy, check out the dollop ligature on 'e-r', swashes for almost every capital letter, and alternate characters to dial in a precise tone. Not to mention the stunning italics, their alternate characters, and their abounding ligatures and swashes.

Atlante comes in either 36 styles (18 display and 18 text) or two technologically advanced variable fonts — enough to set a magazine, book, logo, or poster, and more than enough to ensure brand recognition on your corner of the internet. The Atlante family is an excessive, emotional, yet conventional serif for text and display.

#### VARIABLE STYLES

Light to **Black**  
Display to Text  
*Light Italic* to **Black Italic**  
*Display Italic* to *Text Italic*

Variable fonts are a new part of OpenType technology that allows typeface creators to design fonts, and users to organise and use them, in a more advanced way than was done in the past.

Rather than having one individual font style per font file (i.e., extralight, regular, bold, or extrabold), variable fonts are one file with almost infinite choices within a single “design space”, the total boundaries for a typeface’s appearance.

So what’s a design space? A design space is the total area containing all axes which the font user can customise: weight, width, serif length, optical size, and more. A series of sources (or masters or exemplars) determine the appearance of all lettershapes at certain positions on each axis.

Imagine a design space like a chess board grid with sources lining the edges. Opposite sources usually have opposing characteristics, like extralight versus extrabold. A move in any direction affects the look of the font since the movement brings it closer to one source or another. The closer to one source, the more it will look like that one and the less it will look like the opposite source. So moving in the design space always causes a change in the look of the font.

The final characteristics of the font are defined by the total proximity to all exemplars — where it is located within the total design space.

To get a more accurate picture, now imagine that this grid is not two-dimensional, but is a three-dimensional cube; it has depth, meaning the font creator has defined more than two axes. The user is able to move through that cubed design space, and as they do the font changes in accordance with how close it is to the sources that have defined its look.

Thanks to variable font technology, this means graphic designers and web developers can use mathematically generated styles that, while never actually drawn by the font creator, still exist within that total design space. And the file size is just a fraction of what normal font files are. This is great news for developers, for data use on mobile, for rendering, and for prioritising speed and responsiveness — not to mention creativity!

In a few cases, when some glyphs cannot smoothly transition across the spectrum of instances, a modification called a “jump” is included. Currently not all software responds to variable fonts in the same way.

## GERMAN 9/11PT

Im speziellen Sinn bezeichnet das Wort Sprache eine bestimmte Einzelsprache wie Deutsch, Japanisch oder Swahili etc. Die gesprochenen Sprachen der Menschheit werden gemäß ihrer genetischen Verwandtschaft in Sprachfamilien gegliedert. Jede einzelne Sprache wird dabei anhand der sogenannten Language Codes nach den ISO-639-Teilnormen international eindeutig klassifiziert. Von den heute rund 6500 gezählten Einzel-

## PORTUGUESE 9/11PT

Linguagem pode se referir tanto à capacidade especificamente humana para aquisição e utilização de sistemas complexos de comunicação, quanto a uma instância específica de um sistema de comunicação complexo. O estudo científico da linguagem, em qualquer um de seus sentidos, é chamado linguística. Atualmente, entre 3000 e 6000 línguas são usadas pela espécie humana, e um número muito maior era usado no passado.

## TURKISH 9/11PT

İnsanlar arasındaki anlaşmayı sağlayan bir araç olarak tanımlanabilir. Bu bağlamda dil, kelimelerden oluşan, yani vücut dili gibi sözlü olmayan iletişim biçimlerinin yanı sıra insanların en etkili iletişim şekli olan sözlü iletişimi tanımlar. Dil, ses dalgaları aracılığıyla akustik olarak ve kelimeler aracılığıyla veya işaret dilinde olduğu gibi işaretler aracılığıyla görsel olarak aktarılır (“İşaret dili” ile karşılaştırınız). Ayrica dokunma vasıtasıyla dokunsal

## ICELANDIC 9/11PT

Mál er kerfi merkja, tákna, hljóða og orða sem notuð eru saman til þess að lýsa hugtökum, hugmyndum, merkingum og hugsunum. Málfræðingar eru þeir sem að rannsaka mál, en í nútímanum var málfræði fyrst kynnt sem vísindagrein af Ferdinand de Saussure. Þeir sem að tala mál, eða nota það á annan hátt, eru taldir með sem hluti af málsamfélagi þess máls. Tungumál er hugtak sérstaklega notað um

## FRENCH 9/11PT

Les gestes sont la méthode de communication la plus connue, utilisée par diverses espèces dont l'ensemble des primates. C'est également le cas des abeilles et leurs danses : lorsqu'une abeille exploratrice revient vers sa ruche après avoir trouvé une source de nectar, elle peut effectuer une danse en rond indiquant que cette source se situe à moins de 50 mètres, ou une danse en huit indiquant que cette source est plus lointaine. De

## NORWEGIAN 9/11PT

Et språk er et dynamisk sett av synlige, hørbare eller følbare symboler for kommunikasjon og elementer som brukes for å manipulere dem. Språk kan også henviser til bruken av slike systemer som et generelt fenomen. Eksempler på språk er naturlig språk (menneskelige enkeltspråk, for eksempel norsk), kunstige språk (for eksempel esperanto) og programmeringspråk (for eksempel Java). Menneskespråk omtales vanligvis som

## SWEDISH 9/11PT

Språk eller tungomål är en del av olika system för kommunikation, som används av människor och som vi börjar tillägna stora bitar av redan under våra första levnadsår. Barn lär sig använda språk lika naturligt, som de lär sig att gå. Språket kommuniceras exempelvis via talat språk, teckenspråk, kognitioner och skrift, som är bärare av språk i en rad olika kommunikationssystem. Begreppet språk har två nära sammanbundna men ändå

## SPANISH 9/11PT

Un lenguaje (del provenzal lengatge y del latín lingua) es un sistema de comunicación estructurado para el que existe un contexto de uso y ciertos principios combinatorios formales. Existen contextos tanto naturales como artificiales. Desde un punto de vista más amplio, el lenguaje indica una característica común a los humanos y a otros animales (animales no simbólicos) para expresar sus experiencias y comunicarlas a

## CZECH 9/11PT

Vědecký obor zabývající se zkoumáním jazyka se nazývá lingvistika. Otázky týkající se filosofie jazyka byly pokládány již ve starověkém Řecku, byly zde otázky typu zda mohou slova reprezentovat zkušenosť nebo motivovanost obsahu slov, konkrétními památkami jsou například Platónovy dialogy Gorgias a Faidros. Ještě časnějším dokladem uvažování o jazyku jsou gramatiky sanskrtu, nejranější záznamy o kodifikaci liturgického jazyka a

## ITALIAN 9/11PT

Il linguaggio, in linguistica, è il complesso definito di suoni, gesti e movimenti attraverso il quale si attiva un processo di comunicazione. La facoltà di rappresentare mentalmente un significato è presente in molte specie di animali, tra le quali l'essere umano. La capacità di elaborare e produrre un linguaggio verbale, nell'uomo, si è sviluppata a seguito di mutamenti strutturali della cavità orale. In particolare l'arretramento dell'ugola ha reso

## POLISH 9/11PT

Język służy do przedstawiania rzeczywistości dotyczącej przedmiotów, czynności czy abstrakcyjnych pojęć za pomocą znaków. Zbiór znaków w języku jest otwarty. Wynika to z faktu, że znakiem językowym jest każdy tekst, każda sformułowana wypowiedź, posiadająca znaczenie. Jednostka posługująca się językiem może więc za pomocą jego systemu tworzyć nieskończoną liczbę nowych znaków, także takich, z którymi

## FINNISH 9/11PT

Kieli on järjestelmä, jossa ihminen ilmaisee ajatuksensa kielellisillä merkeillä, abstraktioilla. Näitä merkkejä nimitetään kielellisiksi ilmauksiksi. Puhutuissa kielissä kuuluvia (auditiivisia) merkkejä tuotetaan puhe-elimillä. Kirjoitetussa kielessä kielelliset ilmaukset on tehty silmin nähtäväksi eli luettaviksi. Viitotuissa kielissä kielelliset ilmaukset ovat visuaalisia, eivätkä auditiivisia. Eri kieliä tutkii kielitiede. Kognitiotiede tutkii kieltä

THE DESIGNERS

---

**Yorlmar Campos** is an architect who graduated from Universidad Central de Venezuela. He currently teaches typographic design in the Maestría en Tipografía (typography and type design MA) at the University of Buenos Aires, Argentina, where he previously studied type design. Yorlmar worked with Rubén Fontana and Zalma Jalluf at Fontana Diseño studio, where he acquired great knowledge about design and typography in brands and identity projects. He has also been involved in various typographic projects focusing on technical development for Google Fonts. Some of Yorlmar's typefaces have been selected in the Tipos Latinos biennial (7th and 8th editions), and his work has been published in various books on design and typography.

**Martín Sesto** is a type designer from Buenos Aires, Argentina. As a graphic design graduate from the University of Buenos Aires, his curiosity and interest in calligraphy led him to pursue a Master's degree in typography from the same university, where he developed his first typographic family. Since then, he has collaborated in the development of fonts for various foundries, with projects at Google, and the design of independent fonts with his colleague and friend Yorlmar Campos. Martín also currently works as an interface and user experience (UX/UI) designer.

FAMILY UPGRADES

---

Buy a single weight (or more) now and get reimbursed if you buy the entire font bundle at a later time. This is a great way to explore a new typeface without full commitment. To take advantage of the upgrade, please email [info@type-together.com](mailto:info@type-together.com).

CUSTOM WORK

---

We offer custom font solutions tailored to your needs. This includes developing new typefaces from scratch, modifying existing typefaces, extending language support, and creating logotypes. Please contact us for details at [info@type-together.com](mailto:info@type-together.com).

LICENSING

---

Our complete font catalogue, along with the presented type family here, are available for print, self-hosted web applications, and app embedding from TypeTogether's online store. For other types of licences and more information, please contact us at [info@type-together.com](mailto:info@type-together.com).

TESTING OUR FONTS

---

TypeTogether actively seeks ongoing dialogue with all type users and therefore offers free temporary licences to test any of our typefaces. The test fonts are fully functional and include the entire character set and OpenType features. To request test fonts, please contact us at [info@type-together.com](mailto:info@type-together.com).

PREMIER

---

TypeTogether Premier is our free service that makes it easy for creatives to access and test our entire font library with a one-click trial licence. You'll find over 70 high-quality, award-winning font families, 600+ styles, and support for nine unique writing systems, with more on the way. And only TypeTogether Premier partners are the first to test beta fonts and use them in commercial work before anyone else.

To apply now for TypeTogether Premier, go to [www.type-together.com/premier](http://www.type-together.com/premier) and select Sign Up.

EDUCATIONAL & CHARITY DISCOUNT

---

TypeTogether offers an educational discount on all typeface purchases for students and those in education (schools, departments, etc.). This discount also extends to NGOs and charities in general. Please contact us for details at [info@type-together.com](mailto:info@type-together.com).

For further information, samples, and ordering, please visit [www.type-together.com](http://www.type-together.com).
