# 20 Mil Léguas Submarinas

Bold 54 pt, Português

The year 1866 was signalized by a remarkable incident, a mysterious and inexplicable phenomenon, which doubtless no one has yet forgotten. Not to mention rumors which agitated the maritime population, and excited the public mind, even in the interior of continents, seafaring men were particularly excited.

SemiBold 18.5 pt, English

Kaufleute, Reeder, Schiffskapitäne, Skipper und Master in Europa und Amerika, Offiziere der Kriegsmarine aller Länder und schließlich die Regierungen der verschiedenen Staaten beider Kontinente nahmen die Vorfälle außerordentlich ernst. Seit einiger Zeit schon waren mehrere Schiffe auf hoher See „einem gigantischen Etwas“ begegnet, einem

langen, spindelförmigen Gegenstand, der bisweilen phosphoreszierte und weitaus größer und schneller war als ein Wal.

Regular 16 pt, Italic 16 pt, Deutsch

Los hechos relativos a estas apariciones, consignados en los diferentes libros de a bordo, coincidían con bastante exactitud en lo referente a la estructura del objeto o del ser en cuestión, a la excepcional velocidad de sus movimientos, a la sorprendente potencia de su locomoción y a la particular vitalidad de que parecía dotado. De tratarse de un cetáceo, superaba en volumen a todos cuantos especímenes de este género había clasificado la ciencia hasta entonces. Ni Cuvier, ni Lacepède, ni Dumeril ni Quatrefages hubieran admitido la existencia de tal monstruo, a menos de haberlo visto por sus propios ojos de sabios.

Regular 12.5 pt, Español

À prendre la moyenne des observations faites à diverses reprises, — en rejetant les évaluations timides qui assignaient à cet objet une longueur de deux cents pieds, et en repoussant les opinions exagérées qui le disaient large d'un mille et long de trois, — on pouvait affirmer, cependant, que cet être phénoménal dépassait de beaucoup toutes les dimensions admises jusqu'à ce jour par les ichthyologistes, — s'il existait toutefois. Or, il existait, le fait en lui-même n'était plus niable, et, avec ce penchant qui pousse au merveilleux la cervelle humaine, on comprendra l'émotion produite dans le monde entier par cette surnaturelle apparition. Quant à la rejeter au rang des fables, il fallait y renoncer.

Regular 9 pt, Français

# Двадцать тысяч льё

Bold 54 pt, Русский

**1866 год ознаменовался удивительным происшествием, которое, вероятно, еще многим памятно. Не говоря уже о том, что слухи, ходившие в связи с необъяснимым явлением, о котором идет речь, волновали жителей приморских городов и континентов, они еще сеяли тревогу и среди моряков.**

Medium 22 pt, Русский

Купцы, судовладельцы, капитаны судов, шкиперы как в Европе, так и в Америке, моряки военного флота всех стран, даже правительства различных государств Старого и Нового Света были озабочены событием, не поддающимся объяснению. Дело в том, что с некоторого времени многие корабли стали встречать в море какой-то длинный,

фосфоресцирующий, веретенообразный предмет, далеко превосходивший кита как размерами, так и быстротой передвижения.

Regular 15 pt, Italic 15 pt, Русский

Οι αναφορές που είχαν καταγραφεί στα ημερολόγια διάφορων πλοίων σχετικά μ' αυτή την παρουσία, συμφωνούσαν με αρκετή ακρίβεια στην εξωτερική περιγραφή του εν λόγω αντικειμένου ή όντος, στην απίθανη ταχύτητα των κινήσεών του, στην εκπληκτική μηχανική ισχύ του, στην ιδιότυπη ζωή με την οποία φαινόταν προϊκισμένο. Αν ήταν κήτος, ξεπερνούσε σε όγκο όλα τα κήτη που ήταν ως τότε γνωστά στην επιστήμη. Ούτε ο Κυβιέ ούτε ο Λασεπέντ ούτε ο Ντυμερίλ ούτε ο Κατρφάζ θα παραδέχονταν την ύπαρξη ενός τέτοιου τέρατος – εκτός βέβαια αν το έβλεπαν με τα ίδια τους τα σοφά μάτια.

Regular 13.5 pt, Ελληνικά

Πράγματι, στις 20 Ιουλίου 1866 το ατμόπλοιο *Κυβερνήτης Χίγκινσον* της Ατμοπλοϊκής Εταιρείας Καλκούττας και Μπουρνάχ είχε συναντήσει αυτό τον κινούμενο όγκο πέντε μίλια ανατολικά από τις ακτές της Αυστρα- λίας. Ο πλοίαρχος Μπέικερ νόμισε στην αρχή ότι αντί- κριζε έναν άγνωστο σκόπελο· ήταν μάλιστα έτοιμος να προσδιορίσει την ακριβή του θέση, όταν δύο πίδακες νερού εκτοξεύτηκαν σφυρίζοντας από το μυστηριώδες αντικείμενο στον αέρα, σε ύψος εκατόν πενήντα ποδιών.

# 522 Supported Languages

All of Fontwerk's typefaces support at least 94 Latin-based European languages such as English, German, French, Spanish, Czech, Polish, and Turkish. Some families also support Greek and Cyrillic (e.g. Russian, Bulgarian). If you need further languages or script systems (anything from Cyrillic and Greek to Hebrew, Arabic, Thai and even Chinese, Japanese, Korean (CJK), and Devanagari), we can make custom fonts for you.

## How can a typeface improve the world? Even before he had drawn the first letter, Christoph Koeberlin wanted to answer this question. He wanted to prove that designers can positively influence the environment.

One way that he is doing this is by donating 25% of his income from Pangea to the preservation of the rainforest and to large-scale reforestation projects involving the local population. With every font license you purchase, you are helping to preserve one of the most important factors in slowing down climate change. It's just a bit of a shame that the name *Futura* had already been taken by another geometric sans serif typeface, as it would have been more appropriate here.

For Christoph, the connection and connotation of the name was of great importance. Just like the primeval continent that the typeface is named after, Pangea is a symbol of not only the big (common) picture but of global cooperation. While *Gergő Kókai* from Hungary supported him in the design of the upright characters, he brought *Tanya George* from India and the Japan-based *Gabriel Richter* on board to work on the italics. He consulted with *Irene Vlachou* from Greece, *Ilya Ruderman* from Russia, *Donny Truong* from the USA and *Paul Hanslow* from Australia to ensure the quality of the Greek, Cyrillic, Vietnamese and African Latin characters. The spacing and the kerning of the font would not have been possible without *Igino Marini* from Italy and his superior iKern technology. A broad foreign language exten-

sion seems obligatory for this omnicultural approach and in fact, in addition to the European Latin, Extended Cyrillic, Greek and Vietnamese (that are already included), Arabic is currently in the making, and Hebrew and other languages are to follow. At the end of 2021, Pangea was expanded to provide Latin-based support for 360 African and indigenous North American languages. It is available as a corresponding subset Pangea Afrikan and is free of charge and included in the Standard License!

It's important to mention that the typeface works remarkably well due to its refined space saving – it is more condensed than a normal geometric sans. Indeed, this could even be sold as a further environmentally friendly and eco-conscious feature as it not only saves paper but screen capacity, but maybe that would be too much of a good thing. This characteristic is actually the result of the smart design decisions that Christoph Koeberlin made during the five years he spent working on Pangea. Another outstanding trait is the consequence between the compactness and closeness, while diagonal terminals and round dots make for a friendly appearance. He successfully manages the balancing act between narrow grotesque typefaces and geometric ones. This approach is also demonstrated in the rather large x-

height as well as the barely open forms, but also in the unusual 'spectacle-g', double-story a and l with foot. The more common single-story 'g' and 'a' as well as the straight 'l' are, of course, accessible as OpenType alternatives.

The second member of the family, Pangea Text, is built upon the same foundations but aims to improve legibility. With longer ascenders and descenders, more open forms, slight ink traps and more generous spacing, this variant is great for use in extensive texts and is particularly good for use in small sizes as well as on screens. Not only do both families complement and harmonize with each other, but the decision to work with optical sizes is what makes the core family's uncompromising nature and attractive appearance possible in the first place.

Christoph Koeberlin is not only a designer of highly original typefaces (he also co-designed FF Mark and created Fabrikat), he is also one of the world's most sought after Font Engineers. As you would expect from such an expert, the entire superfamily comes with a variable font version. This version allows a smooth and infinite adjustment; of font weights from Light to Bold, of ascenders and descenders, of the characters' openness, of spacing, of the angle of the slope and of ink traps as well as the seamless switching between alternates. Nine axes raise the bar in this area. As with all other *Fontwerk* fonts that are already available as variable fonts, the Pangea variable versions are included in the super family package at no additional cost and can be tested free of charge as subsetted Trial Fonts.

Saving the world through one typeface at a time – it's worth a try.

## DESIGNER

# Christoph Koeberlin

Christoph Koeberlin has polished, finessed and refined typefaces for a number of the top labels such as *FontFont*, *Swiss Typefaces*, *TypeBy*, *HVD Fonts*, *Milieu Grotesque* and *Production Type*. Without him the Fontwerk Engineering Team would not be the same. As a very good friend of the company from its inception, he has been a great support to what we are doing and will always have a place of honour in our story.

Proof of his prowess as an exceptional type designer is demonstrated through the fact that his first families, FF Mark (designed in collaboration with Hannes von Döhren and the FontFont Type Department in 2013 and Fabrikat (HVD Fonts 2016) very quickly became bestsellers. At the moment, he is concentrating on his project [sportsfonts.com](http://sportsfonts.com) and in particular, on custom type projects. His exclusive custom typefaces for his favourite football team 1. FC Kaiserslautern and for the Bundesliga Club FSV Mainz 05 were very well received by fans and experts.

©Lars Wiedemann

The father of two sons, he loves to work with others, especially on his beloved typographic knowledge website, *Typefacts*. All of this mostly takes place in his legendary allotment garden office in Prenzlauer Berg, where in quieter moments, he also thinks about sustainability, chocolate and expanding his record collection.

# File Formats and Licensing

All our typefaces are provided in OTF (OpenType fonts with PostScript outlines; usually used for desktop, apps, ebooks, and hardware) and WOFF2 (Web Open Font Format; OpenType fonts for the use on the web) formats. Most other formats such as EOT, SVG, WOFF or TTF are not necessary anymore today. However, we can generate those files in case they are really needed.

We believe we have one of the simplest licensing models in the industry. If we were sitting in the pub, we could draw it out on a beermat. It's hard enough to find the right font, so we want to make the licensing as simple as possible. What does this mean? No drop-down-menus, just a **LICENSE IN ONE CLICK**. You pay just once and that's that as long as you keep within the boundaries of use as stated in the License.

Please check our website [www.fontwerk.com/licensing](http://www.fontwerk.com/licensing) for further information.

## TRIAL

1 User for testing purposes only

[CLICK HERE TO DOWNLOAD FOR FREE NOW!](#)

## STANDARD

**Print:** 1 User  
**Web:** 100,000 Pageviews/month  
**App:** 1,000 Downloads  
**eBook:** 10,000 Downloads

## EXTENDED

**Print:** 15 Users  
**Web:** 1,500,000 Pageviews/month  
**App:** 15,000 Downloads  
**eBook:** 150,000 Downloads  
**Broadcasting:** 1,500,000 Viewers

**TRIAL** The 'Trial Fonts' contain around ¾ of the actual characters and usually no OpenType features. The license allows free use during the test phase. Both desktop and webfonts are included so that you can design mockups, websites, apps and eBooks etc. and then present to the client without having to commit to the purchase. Only when it is clear that the font fits and the actual projects go live or are produced, will you need to purchase the Standard version.

**STANDARD** Our most popular license that includes use in Print (desktop) for one user for use on the Web (100,000 pageviews per month), in an App (1,000 downloads) and eBooks (10,000 downloads). If more users, pageviews or downloads are required, either several Standard licenses or an Extended license must be purchased.

**EXTENDED** This is comparable to a MUL, a multi-user-license. Extended covers use in Print for 15 users with total use on the Web (1.5 million pageviews per month), in Apps (15,000 downloads) and eBooks (150,000 downloads). It is also the right license for use in Broadcasting (1.5 million viewers).

**ENTERPRISE** For all other situations that are not covered by one of these licenses, an individual agreement is necessary.

## We craft modern typefaces and provide innovative font engineering and type design services.

---

We **believe** that convincing communication is only possible with the most aesthetically pleasing and most technically sound fonts.

Our **vision** is to provide easy access to such fonts through free trial versions, a simple licensing model and one of the fastest ordering processes around.

Our long-lasting designs add **value** above and beyond the actual cost. These fonts can be downloaded directly by discerning

agencies, designers and brands or ordered as a perfectly fitting custom type solution in addition to font engineering services.

We hope to **contribute** to something bigger by promoting talented designers from around the world with whom we work under the fairest conditions.

Our **motivation** is simply the love of good design. Outstanding type is our contribution to that.
